

Christmas Greetings from Executive Director

Dear Donors and Sponsors,

I am writing this mail with my heart full of joy as this year 2023 was a year of joy and a blessing as well as one of great challenge.

It is a joyful blessing because we work with our children who make us laugh, cry and enlarge our hearts and enlighten our minds by their pure love, unblemished innocence, unhidden frankness as well. It was a year of challenge, as one of our supporting foundations had abruptly closed their foundation and we lost many sponsors.

Dear Donors and Sponsors, we are with expectation, entering the New Year – 2024. It is with lot of courage and hope that we continue our mission and philosophy of touching little children's hearts and enlightening their minds which will always empower their future and our future as well.

We thank you sincerely for Your participation in this work of ours. I take this opportunity to wish you a Happy New Year and a Prosperous New Year -2024.

**Dr. I. Sebastian,
Executive Director, SJDT.**
